

TRAUB TNL12/7

Second-hand machine - refitted

Technical data

Machine number:	6000338
Year of manufacture:	2001
Control system:	TRAUB TX8i

Basic equipment

Main spindle:	max. d=13mm, C axis Change parts for collet (F15-580, 120E)
Counter spindle:	max. d=13mm, C axis Change parts for collet (F15-580, 120E)
Tool carrier 1:	X/Y axis, 6 stations with tool drive
Tool carrier 2:	X/Z axis, 6 stations with tool drive
Front working attachment:	X/Z axis, 4 stations with tool drive
Back working attachment:	X axis, 4 stations with tool drive (parting side machining)

Special equipment

Slat band chip conveyor with discharge height 580 mm, with one-piece cooling lubricant tank 200 liters. with settling tank and overflow screens, filter fineness 0.25 mm; incl. electrical run control

High-pressure cooling lubricant supply inside, max. 30 bar, for fixed tool holder, including attachment parts for front (T2, T3, T4) and back working attachments (T1, T2, T3), individually controllable

Workpiece removal unit with collection bin at right front side, part discharge with back working attachment, max. part length 180 mm, incl. flushing device

Cleaning gun for the work area

Software add-on TRAUB Polyform, easy programming for milling operations with the C axis

Warranty:	12 months in Germany
Commissioning:	According to expenditure
Delivery date:	by agreement
Delivery:	ex works
